35. To consider correspondence from Carmarthenshire County Council regarding footway lighting.

Council considered a letter from Carmarthenshire County Council proposing to replace all low sodium lighting remaining in the area with new LED lamps. The change was necessary due to the last manufacturer of the low sodium lighting ceasing production. The work would be done with the help of an interest free loan. Based on current energy prices, the Community Council would look to make a large saving each year on the footway lighting bill due to the energy efficiency of the new lamps.

RESOLVED that Council proceed to take part in the Carmarthenshire County Council's project to replace the low sodium lamps with the assistance of the interest free loan offered by the County Council.
